SKILLS

PROGRAMMING

Languages:

Java • Python

Swift • Bash

Web Development:

CSS • JavaScript

HTML • SQL

Tools:

Xcode, Git

COURSEWORK

UNDERGRADUATE

Data Structures & Algorithms

Operating Systems

Database Management Systems

INDEPENDENT

Unix Tools and Scripting

iOS Application Development

Web Development

CO-CURRICULAR

Delta Force Programming Club

Captain, School Debating Team

Festember Marketing Team

EXPERIENCE

DOVEL TECHNOLOGIES | SOFTWARE DEVELOPMENT INTERN

June 2017 - July 2017 | McLean, Virginia

- Dovel Technologies provides software solutions for Federal agencies.
- Improved security of Dovel's Grant Provision product - inForm - by implementing **CSRF Protection** using Java's Spring framework.
- Worked on migration of their database from Oracle to **Datomic** using **Clojure**.

ZOHO CORPORATION | SOFTWARE DEVELOPMENT INTERN

Dec 2016 | Chennai, India

- Improved employee efficiency by developing an iOS Application using **Xcode** and **Swift** that provided report data to Zoho Employees on-the-go.
- The application displayed the data using animated graphs and color coded tables and incorporated **token based authentication**.

INFOSYS | ON CAMPUS TRAINING

May 2011 | Chennai, India

- Was 1 of 40 students selected for the **Spark (Catch Them Young) Program**.
- Underwent special training conducted by full-time engineers in Visual Basic, Alice, and basic database concepts with SQL.
- Developed a system that simulates the booking of train and airline tickets.

PROJECTS

LYRICS-DL | PYTHON

June - August 2017 | Source : [github.com/gauthamk97/lyrics-dl](#)

A **Command Line Tool** I developed that scrapes and saves song lyrics from AZLyrics.

The tool is live on **PyPI** ([pypi.python.org/pypi/lyrics-dl](#)).

- Can take multiple mp3 files as attributes, and find and save the obtained lyrics in the **mp3's metadata**.
- Accepts artist and song details through a prompt if needed.
- Uses **urllib** to send requests, **beautifulSoup** to parse the HTML, and **eyed3** to access the metadata of the mp3 files.

AAVEG | SWIFT, XCODE

Nov 2016 - Jan 2017

An **iOS Application** I developed for the cultural festival of the same name. The app delivers the latest news, scores, blog posts and event results.

- Incorporates a multipage design with animated graphs, an **interactive splash screen** and **push notifications** using **Firebase**.
- The app is currently **LIVE** ([goo.gl/cvH7Ao](#)) on the App Store.

SNAKE XENZIA | C++

Jan - May 2015 | Source : [github.com/gauthamk97/Snake-Xenzia](#)

- Created a 2D obstacle-based Snake game with multiple levels and time based power-ups. The game is coded entirely in C++.
- Used the **graphics.h** library to draw shapes and to animate the snake, provided mouse support to navigate the menu and saved high scores using files.

AWARDS

2015 100%

2015 First Place

2013 1st in State

2012 Best Speaker in the State

2011 2nd in State
